OFFICERS' COMMUNICATIONS.

The following communication from His Honor the Mayor, accompanied by a copy of a resolution of the Board of Aldermen, adopted April 18, 1899, granting permission to John Lawless to erect a frame building at 184 Third street, was presented, received and laid upon the table.

Jersey City, N. J., April 29, 1899.

Honorable Board of Aldermen:

Gentlemen—I herewith return to your Honorable Board, without my approval, a resolution passed at your meeting held April 18, 1899, and presented to me for my approval April 19, 1899, of which the enclosed is a certified copy.

I have taken this action for the following reasons:—The resolution before me contemplates the erection of a frame structure within the fire limits. I am of the opinion that such a building should be built of brick, if at all. Moreover the fact that wagons are to be stored in this building, which will necessarily be taken in and out every day, thereby causing much noise, is looked upon by the neighborhood as a nuisance.

For these reasons and those advanced in a veto of a former resolution on the same subject, I withhold my approval.

Very respectfully,

EDWARD HOOS,

Mayor.

The following communication from Hon. Allan L. McDermott, Corporation Counsel, was presented, received and ordered filed:—

Jersey City, July 24, 1899.

To the Honorable the Board of Aldermen:

The act authorizing your Board to appoint an inspector of buildings provides that it shall be his duty, among other things, to inspect any and all buildings, chimneys and structues which have become dangerous or unsafe, and to see that proper precautions are taken for the protection of life and property.

You have enacted an ordinance prescribing that the inspector shall have power to regulate and order the removal of all buildings liable to fall, or that are dangerous to life, "said removal to be made by the owner, agent, or person in control thereof." You have provided that if the owner shall not remove the offensive structure within days to be determined by the Inspector, such owner shall be subject to a penalty; but your ordinance does not provide that the Inspector can take any steps to abate the nuisance. In the absence of specific legislative authority to destroy dangerous buildings, I advise that the course prescribed in Sections 8, 9, 10 and 11 of your ordinance be pursued. If this is not found efficient, complaint may be made to the Grand Jury and the owner of the unsafe structure will be subject to indictment for maintaining a nuisance.

If a case is met with in which there is danger of an immediate collapse of structure, the law of over-reaching public necessity will justify immediate action, and any steps (including the tearing down

of the building) may be taken that are necessary to remove the danger to the public.

Respectfully,

ALLAN L. McDERMOTT,
C. C.
